## EXPERIENCE

### Front-end Developer (React / TypeScript)
09/2021 – Present

Kreo Software — Construction-tech SaaS

Kreo Takeoff is a cloud SaaS for quantity takeoff and cost estimating on construction drawings.

- Build and maintain core product features in a large TypeScript / React / Redux-Saga codebase: canvas measurement tools (Paper.js), data grids (AG Grid Enterprise), reports with formulas.
- Owned the subscription and billing front end on Chargebee: plans, seats, add-ons, trials, renewals and usage limits.
- Built admin, team and permission flows (CASL, Keycloak) and collaboration features: comments, notifications, real-time updates.
- Built an in-app AI assistant: streaming chat (SSE), agent loop in redux-saga and client-side tools that let the LLM act inside the app; plus a voice assistant on Gemini Live.
- Contribute to the Python AI service: FastAPI, LangChain / LangGraph, Gemini and OpenAI models, prompt and tool design, pytest scenario tests.
- Use AI coding tools daily (Claude Code, Cursor, MCP); unit tests with Jest, code reviews, monitoring with PostHog and Sentry.

### React Developer
10/2020 – 08/2021

Dental Clinic

- Developed and supported SPA applications with TypeScript/JavaScript (React/Redux).
- Refactored existing TS/JS code.
- Built layouts in HTML/SCSS/styled-components from ready-made designs.

## EDUCATION

### Front-end Developer course
01/2022 – 12/2022

RS School (The Rolling Scopes)

- React, Redux, TypeScript.

### Front-end Developer course
02/2020 – 02/2021

IT-INCUBATOR

- React, Redux, JavaScript, TypeScript.

### Master's program
2020 – 2021

### Management specialist, lawyer
2005 – 2010

Institute of the Border Guard Service of the Republic of Belarus

## COURSES

- English course — Churchill English School (09/2022 – 02/2023)
- English courses — Incubator (01/2021 – 12/2021), Survival (2021), NSI (2016 – 2017)
- Sololearn — HTML, CSS
- Military translator courses, German (2009)

## SUMMARY

Front-end developer on one complex SaaS product since 2021: data-heavy React and TypeScript interfaces, canvas drawing tools, AG Grid, billing. Since 2023 I also build AI features end to end, from the chat UI to the Python LLM service.

## SKILLS

**Core**
TypeScript, JavaScript, React, Redux, Redux Toolkit, Redux-Saga, HTML, CSS / SCSS, styled-components

**UI and data**
AG Grid Enterprise, Paper.js, React DnD, Recharts, Material UI, Ant Design

**AI and back end**
Python, FastAPI, LangChain, LangGraph, Gemini, OpenAI

**API**
REST, Axios, io-ts, SSE, WebSocket

**Testing and build**
Jest, Enzyme, pytest, Webpack, esbuild, ESLint

**Tools**
Git, Jira, Confluence, Bitbucket, PostHog, Sentry, Chargebee, Keycloak, Claude Code, Cursor

**Familiar with**
Next.js, C# / .NET (self-study)

## KEY ACHIEVEMENTS

**AI assistant, end to end**
Shipped an AI agent chat and a voice assistant: React client tools plus the Python LLM service.

**Subscriptions and billing**
Owned the Chargebee billing front end: plans, seats, trials, renewals, usage limits.

**Performance and UX**
Reduced page load time, improved app performance and user retention, implemented responsive design.

## LANGUAGES

Russian — native
English — working proficiency
German — basic
